

KleenCoil1

Non-Rinse Evaporator Coil Cleaner

NC KleenCoil is a concentrated alkaline-based detergent coil cleaner registered with NSF for use in food processing plants. **KleenCoil** is a non-foaming cleaner formulated especially for use on multi-row evaporator coils in heating and air-conditioning units, permanent-type and electronic air filters as well as heat pump units. Ideal for use to remove grease, tobacco tars and other stubborn deposits.

FEATURES & BENEFITS

- Cleans Away Grease, Grime, Oil & Dirt
- Non-rinse when diluted 1-7 with water - leave for condensate to wash off evaporator coil.
- Concentrated formula - cost effective performance
- Recommended for interior cleaning.
- Metal Safe – will not damage aluminum or other metals
- Ideal for cleaning Evaporator & Heating Coils, Window units, air cooled condensers & permanent air filters
- Cleans Away Grease, Grime, Oil & Dirt
