

NC Silicone Spray (N4840)

DESCRIPTION: NC Silicone Spray is formulated specifically for the unique needs of both the food and textile industries. This medium viscosity formula provides light lubrication to wide variety of surfaces, machinery and applications. In food processing or preparation areas, this product is ideal for use as a lubricant with incidental food contact when used in compliance with 21 CFR 178.3570. Applicable areas include those such as cutting tables and blades, conveyor system maintenance, bottling and canning machinery, bakery equipment, dairy equipment, feed racks, in bars and restaurants, ice machines, coin slots, guides, belts, slicing machines, oven, mixers, grinders and virtually any equipment or machinery in or near food related areas. In addition, this product meets requirements for use in federally inspected meat and poultry plants. The silicone is colorless, odorless, heat stable and non-staining. . In textile applications, it is ideal for use on cutting tables, needles, blades, foam/fabric installation, upholstery shops, garment and milling operations.

FEATURES & BENEFITS

- NSF Registered for Use in Food Processing Areas
 - Non-Stick Lubricating Spray
 - Multi-Purpose; Multi-Use
 - Colorless; Non-Staining

DIRECTIONS: Remove cap and rotate actuator to dot on valve cap. Shake can, hold upright, and spray onto desired surface from a distance of 12-14 inches. Spray in a sweeping side-to-side motion. Any accumulation will rapidly dry out unassisted. Avoid using in area where paint is being applied.

IMPORTANT: This product will damage some plastics and painted surfaces. Do not allow product to pool on surfaces. Protect surrounding area from slippery overspray when needed. Always test in an inconspicuous area if unsure of material compatibility. **NOTE:** This product is not intended for use as a food additive. **DANGER:** Extremely flammable aerosol. Contains gas under pressure; may explode if heated. May be fatal if swallowed and enters airways. Causes skin and serious eye irritation. May cause drowsiness or dizziness

PHYSICAL PROPERTIES

APPEARANCE	Liquid
COLOR	Clear
ODOR	Solvent
pH	N/A
SPECIFIC GRAVITY	ND
PACKAGING	6 x 16 oz. cans (net fill 10 oz.) per case
