

# Spray Adhesive (N4820)

## Wide Web Pattern Aerosol Duct Liner Adhesive

**DESCRIPTION:** NC Spray Adhesive is a high solids, non-chlorinated, waterproof, flexible, transparent, non-staining spray adhesive for both temporary and permanent bonding.

### FEATURES & BENEFITS

- Wide Web Spray Pattern - economical in use
- Flexible use - permanent or temporary bonding
- Non-chlorinated formula/Non-ozone depleting
- Ideal for fiberglass insulation, duct liner, cardboard, most plastics, polyethylene sheeting, etc.

**DIRECTIONS:** Shake well before using. Hold can upright and apply in side-to-side motion 10-14 inches from surface. For temporary bonds, spray surface, allow to tack then apply material to be bonded. For permanent bonds, liberally spray both surfaces to be joined, allow adhesive to tack, and then press surfaces together. After use, turn can upside down and spray for two seconds to clear valve. If adhesive dries in valve opening, remove with degreasing solvent.
